

# PSI WALL COLLAR ROUND & FLAT CONDUCTOR

FOR PIPES, CABELS & LIGHTNING PROTECTION

PIPE AND CABLE  
PENETRATION

LIGHTNING PROTECTI-  
ON AND EARTH STRAP  
PENETRATION

HIGH QUALITY  
RUBBER

## APPLICATION

When it comes to sealing pipes, cables and lightning protection wires through walls, ceilings, floors, shaft entries, swimming pools and groundwater tanks, wall collars are the best accessory to hydrostatically seal off the penetration.

## YOUR ADVANTAGES

- Water pressure tight
- High quality rubber
- Fast and easy installation

## TECHNICAL DATA

| Description          | Unit                          |
|----------------------|-------------------------------|
| Round conductor      | 8 - 10 mm                     |
| Flat conductor       | 30 x 3,5 mm<br>oder 30 x 3 mm |
| Tensile strenght     | 9,5 N/mm <sup>2</sup>         |
| Breaking elongation  | 500%                          |
| Shore hardness A     | 45 ± 5°                       |
| Operating temp. max. | 80 °C                         |
| Operating temp. min. | - 40 °C                       |
